

## A Word to The Stockmen About Salt:

We just received a car of Michigan rock and barrel salt. This is double the strength of Kansas or other southern salts. You will have no trouble with the cattle's tongues getting sore and going off feed. Poor rock salt is worse than no salt, so be sure and get the best.

 Chamberlain's Colic, Cholera and Diarrhoea Remedy is today the best known medicine in use for the relief and cure of bowel complaints. Sold by all Dealers. 11-4  
 Punctuality can be cultivated. Slow aches can be cured. Some one has said that the only way to catch a train is to start in time; and in this pithy sentence lies the gist of the only cure of the habit of punctuality. Two rules

grow out of it. One is, "Always begin in time to get ready;" and the other is "When there are several things to be done, decide which is the most important and do that first." Punctuality is a comfortable virtue in the family and in business and entirely independent upon your will.  
 "Can be depended upon" is an expression we all like to hear, and when it is used in connection with Chamberlain's Colic, Cholera and Diarrhoea Remedy it means that it never fails to cure diarrhoea, dysentery or bowel complaints. It is pleasant to take and equally valuable for children and adults. Sold by All Dealers. 11-4

The total footings now are over \$400,000.00 and the deposits have increased the past two years over \$171,000.00.  The Whitehouse Motion Pictures which comes to O'Neill next week are making a splendid reputation throughout this territory for live, clean interesting pictures. They cater particularly to the ladies and children and do not show the immoral or vicious subjects which are the main objection to this form of entertainment. They have a brand new tent which is a beauty, their own electric plant and many thousand feet of splendid, new film. If you care for entertainment of any sort, you cannot do better than patronize them.  
 Among those who like to mingle thought with their sports a pleasant hour may be spent transforming one word to another by the changing of a single letter at a time. For example, one of the company writes upon the board the word "beef," and says it is to be changed to "pork." A second person goes to the board and by the change of one letter makes it beet. The third person changes it to beat, so by each one's changing one letter it becomes successively: Beef, beet, beat, peat, pert, port, and pork. Or change nose to hand thus: Nose, hose, hast, hart, hurt, hunt, hint, hind, hand.  
 The carpenters and decorators have completed their work upon St. Patrick's church and the work of installing the furniture is now going on. The date of the dedication has not been decided upon yet, but will be the forepart of October. It was thought possible to have the dedication the latter part of this month, but as some of the church dignitaries, who will be here upon that occasion, were not able to come this month the dedication will not be held until some time next month. Father Cassidy believes that he will be able to announce the date in about a week.  
 It is a true and trite saying, "well begun is half done," and we insist that no school is really right well begun that does not open with a good, round, hearty song. It refreshes brightens, pacifies discordant minds, soothes ruffled tempers and imparts a relish for the duties that follow. Schools opening with song we have always heard pupils express gladness over it, but almost invariably they signify a dislike to the school that never has a song in it to relieve the dull monotony that the regular work often takes on. This is particularly so with young pupils. A singing people are a happy people, then let us sing.  
 Thomas Challinor has filed his petition in the district court praying for a divorce from Mary T. Challinor, to whom he was married in Chicago, Ill., on or about May 15, 1902. Plaintiff alleges that defendant has been guilty of extreme cruelty toward plaintiff without just cause or provocation. That she caused to be filed before the Holt county insanity commission an information charging him with being an insane person and caused a hearing to be had upon the same which resulted in the discharge of the plaintiff. He further alleges that such information was false and was made by said defendant with the intention to harass and annoy the plaintiff and to bring him into disrepute in the neighborhood in which he lives. That by reason of said charge plaintiff has suffered great pain both of mind and body so as to impair his health. He

alleges that defendant is unfit to care for their three children and he asks for a decree of divorce and the custody of the children.  
 Charged with assaulting Julius Felix, an Mexican laborer working upon the convent, Joseph Scario, an Italian laborer working upon the same building, was arrested by sheriff Grady last Tuesday morning. Scario and Felix were carrying some heavy timbers and the Italian got his finger pinched and claimed it was the fault of the Mexican and he went after him with a knife, cutting a deep gash in his back just above his right hip. He made another slash at him as he fell and cut him on the calf of the leg. The cut in his back would probably have finished the Mexican had not the blade struck a rib and prevented the knife from reaching a vital spot. The wound while painful is not thought to be dangerous. Scario is now in the county jail awaiting the outcome of Felix's injuries and will be brought before the county court next Tuesday morning for preliminary hearing, provided the injured man continues to recover.  
 Our town has one thing which she is justly proud of and to which she largely owes her good name, the influence of our schools. They have sent classes of young ladies and gentlemen that are welding a power for good and most successfully filling the best places and positions in life. There is no more efficient aid to morality, honesty, sobriety and good citizenship than well conducted schools, and it is the part of wisdom to keep these schools up to the very highest point of excellency, and to do this there must be harmony of four elements, viz: the school board, the patrons, the scholars and the teachers, and without which perfect success cannot be attained, therefore, let it be the duty of these four elements to see that no deficiency or hindrance arises on their parts to thwart the good purposes of our schools. If factions exist, pray disband, and give your hearty sanction and co-operation to the efforts being.  
 Sheridan Simmons returned from his Omaha visit last Sunday. Sheridan says that he was warmly received by the democratic leaders of Douglas county and they were highly elated over the vote given the Omaha mayor in O'Neill at the primary election. The vote received by Dahlman here was a surprise to the leaders as it was generally understood in state democratic circles that Shallenberber's oil inspector, Arthur F. Mullen, carried the vote of O'Neill democrats in his vest pocket and that they would be dumped into the hopper for the governor when the proper moment arrived, and the surprise and pleasure of the Dahlmanites can be imagined when the returns disclosed the fact that the Omaha man was but a few votes behind in the city. Sheridan says that he attended the monster Roosevelt meeting at the auditorium in Omaha last Friday evening and was honored by the committee by being given a seat upon the platform, among the rest of the out-state notables. He says that he thoroughly enjoyed the meeting and his entire trip to the metropolis of the state.  
 A very pretty wedding was held at St. Patrick's Catholic church last Tuesday morning when Father O'Sullivan performed the ceremony that united in the holy bonds of wedlock, Mr. William P.
